**Subject:** Re: Engagement on EPA's CO2 regulations

Hi Angela,

From our perspective we want to ensure that wood fired (biomass) electricity generation remains a renewable source of electricity. Wood fired plants creating renewable electricity can help in meeting the GHG reduction goals for Wisconsin.

Please let me know if you need any other information. Please keep me in the loop on meetings/discussions as it relates to this rule making and renewable generation.

Thank you,

Rob Sanch, CHMM
